You are missing a treat if you are not reading the Brown Mouse in FARMING.

Ladies are afraid of mice—but you will love the Brown Mouse. Now running in FARMING.

A marriage license was issued June 10th, 1924, to Mr. Alvin F. Leinweber and Miss Marie Foster.

Louis B. Grell, local dealer, reports the delivery of an Essex Coach to Mrs. Helen Miller, Hondo, this week.

Mr. and Mrs. Alphonse Boog of D'Hanis were the guests of Mr. and Mrs. Lou E. Heath here Sunday.

In a base ball game here last Friday afternoon between the Hondo All Stars and a Devine team the game went to the visitors by a score of 8 to 5.

The Brown Mouse is a delightful story for the summer reading. Send us a quarter for all the back numbers of FARMING containing the story.

Mr. and Mrs. A. L. Haegelin accompanied their daughter, Miss Irma, to San Antonio Monday, where she will attend the summer school at Our Lady of the Lake College.

Next Thursday is Juneteenth and the watermelons are far from being ripe. It seems our colored friends also have their worries. Juneteenth to them without watermelons is the same as a barbecue without meat to the Caucasian.

A report on the head of the dog that attacked and painfully lacerated the face of the little Merritt girl last week, and which was sent to the Pasteur Institute at Austin, brings the information that an examination of the brain of the dog showed no indication of rabies.

Mr. and Mrs. P. H. Renken and children went to San Antonio Sunday to visit Mrs. Renken's brother, August Schott, who was operated on for appendicitis some ten days ago. They were glad to find Mr. Schott getting along fine and he will be able to leave home in a few days.

F. G. Muennink, J. M. Finger, Eric Rothe, Pete Koch, Jr., Wm. Finger, Nick Fohn, Louis Carle, Jr., Alf. Jansmeyer, Claud Gilliam, Chick Morris, Thad Gilliam, Adolph Tondre and son, Chas. Johnson, Chas. Schuehle and perhaps others whose names we failed to get, composed a party that fed the fishes and redbugs at Medina lake this week.

Another Medina county boy has made good. Mr. and Mrs. A. B. Brucks are in receipt of the pleasing information that their son, Fred J. Brucks, a student at the Southwestern University, Georgetown, and one of the honor students of the institution, received his B. A. degree Tuesday. However, the young gentleman is not satisfied with his accomplishment and will remain for the summer term of the school.

Mrs. Ira Schmidt was a business visitor here from Biry Thursday. She is anticipating a visit from her sister and brother-in-law, Mr. and Mrs. E. H. Halzenbuehler and children the coming week. The Halzenbuehlers are out on a sight-seeing trip in their car and this section is included in their itinerary.

Emil Grell, an erstwhile esteemed citizen of Hondo but who has made his home in San Antonio for the past half dozen years, was a between trains visitor here Wednesday. Time seems to be dealing kindly with him and he is apparently in the best of health. The purpose of Mr. Grell's visit was to supervise the erection of a monument over the grave of his daughter in the Hondo cemetery.

Mrs. Frank Scott Cockrell is taking an advanced course in music at Our Lady of the Lake College in San Antonio. Accompanied by Mr. Cockrell and two sons, Masters Frank, Jr., and Thomas, she went to the city Sunday where the boys will be the guests of Mr. and Mrs. Williford while Mrs. Cockrell is at the College. Master Everett remained at home with his grand-mother, Mrs. E. E. Scott.

Reverend and Mrs. J. J. Ray and son, Angus, arrived here Monday coming overland from their home at Mason on a visit to Judge and Mrs. A. M. Lamm, the lady being a niece of the venerable chief justice of Precinct No. 1. The reverend gentleman visited here some six years ago, at that time being engaged in Y. M. C. A. work at Camp Travis, San Antonio, and said he noted many improvements in our town since his former visit. The party returned to their home at Mason Thursday.

Mr. and Mrs. Arthur Weide, returning from quite an extended visit to various points down in the Rio Grande valley, came by here on their return trip on a short visit to the lady's parents, Mr. and Mrs. C. R. Gaines. The Weides are very much enamored with the lower valley country, particularly the section around McAllen. They made a record run to Hondo from the Valley. Leaving down there early in the morning they drove to Kelly Field where they stopped for an hour and a half, reaching here at 10 o'clock Sunday night. They left Wednesday morning for their home at Lockhart but will break their trip at Kelly Field for a brief visit to relatives.

Otto Lebold will soon cease to be a citizen of Hondo. He and Joe Haby of D'Hanis have been trading, and in losing Mr. Lebold and family we gain Mr. and Mrs. Haby as citizens. In a trade consummated this week Mr. Lebold becomes the owner of the Haby farm, some three miles north of D'Hanis, while Mr. Haby becomes the owner of the Lebold home in Hondo. While regretting to lose the Lebold family the people of Hondo will rejoice to welcome Mr. and Mrs. Haby as residents. Mr. Lebold plans to leave for his farm by the middle of the coming week.

Carter & Bader, Ford dealers, report the following deliveries for the past week: Clint Rothe, D'Hanis, coupe; J. P. Forgason, Hondo, touring; Claud Graham, Tarpley, truck; Hondo Gin & Milling Co., Hondo, truck; W. B. Henry Leinweber, one of our upper  
Hondo farmers, was a caller at this  
office Saturday and presented the edi-  
tor with a dozen of as fine apricots  
as we ever saw. Mr. Leinweber had sev-  
eral young trees loaded down with  
this delicious fruit, and was here pur-  
chasing a steam canner to preserve  
them. He also has several peach  
trees loaded with fine fruit which will  
ripen soon and he intends to can them  
also. We have seen as fine peaches  
grown in Medina County as ever  
grew anywhere, and Mr. Leinweber's  
apricots are the finest we ever saw.  
When a suitable location for an or-  
chard can be found there is no ex-  
cuse for any home so situated being  
without an abundant supply of fruit.  
The greatest drawback is the early  
blooming of the trees in the spring  
and the killing of the blossoms by  
late freezes. This destroyed the  
fruit crop for most of Mr. Leinweber's  
neighbors last spring, but on sev-  
eral occasions he saved his crop by  
building log-heap fires where the  
smoke would blow through his or-  
chard when he felt the temperature  
dropping too near the freezing point,  
and in this way he saved his fruit  
crop by a little timely work and pre-  
caution.

Will Earnest Newton resigned as  
linotype operator for the Anvil Her-  
ald Saturday evening and left the  
next day for Georgetown where he  
will attend summer school. Will  
Earnest came home from the New  
Orleans Linotype school on the 20th  
of last October and found the editor  
of this paper flat of his back and so  
racked with rheumatic pains that al-  
most every movement meant a scream.  
Inexperienced as he was in printing  
and with no one but himself to de-  
pend upon in managing the machine,  
he took charge of it on October 22nd  
and from that day on managed to  
keep the paper reasonably up to its  
standard in the matter of type, as  
well as taking care of the composi-  
tion on Farming and setting the Di-  
rectory of Medina County schools. He  
was steadily developing into a capable  
and efficient operator. But Will  
Earnest is ambitious to be an attor-  
ney at law and he goes back to school  
to pursue his studies to that end. It  
is a laudable ambition and this paper  
joins his friends in wishing him suc-  
cess and in hoping that while this  
paper loses a promising machine op-  
erator the legal profession may se-  
cure one who will reflect honor upon it.

The game of baseball between the  
Dille Botica Grande team and the  
Hondo Aztecs on the local diamond,  
went to the Aztecs by a score of 3 to  
2. The game being called during the  
fourth inning. The captain of the  
Dille team called his men off the  
field, protesting a decision of the um-  
p. Those familiar with baseball  
rules claim the decision of the um-  
pire was strictly in accordance with  
the rules, and those who witnessed  
the game claim that the Dille team  
realized it was outclassed and dodged  
behind a subterfuge to escape a bad  
walloping. The entrance fee was re-  
turned to those who had gone to wit-  
ness the game.

BIRTHDAY CELEBRATION.

Mr. H. V. Haass, Sr., was treated  
to a grand birthday dinner Sunday,  
June 8, 1924, in honor of his 60th  
birthday. The event was made the  
occasion for a family reunion and a  
most enjoyable time was spent by all.  
The party was composed of the  
following: Mr. and Mrs. H. V. Haass,  
Sr., Judge and Mrs. H. E. Haass,  
Mr. and Mrs. Wm. Edgar, Mr. and  
Mrs. Herbert Edgar, Mr. and Mrs.  
Roy Carter and children, Mr. and  
Mrs. H. V. Haass, Jr., and children,  
and Mr. and Mrs. Phil Jagge and  
little son, Clinton.

All wish Mr. Haass many happy  
returns of his natal day.

LET'S WELCOME HIM.

Hon. T. W. Davidson, present Lieut-  
enant Governor and candidate for  
the nomination for Governor, will  
make a tour west from San Antonio,  
beginning Monday, June 23rd. He  
expects to speak here at 10 o'clock  
Monday morning. The editor of this  
paper is for Jim Ferguson for Gov-  
ernor, but he wants to see Governor  
Davidson treated with the courtesy  
befitting his prominence and the hon-  
orable office to which he aspires.

SAYS KARNAK OFFERS  
HEALTH TO MILLIONS

**Thousands of People  
Throughout the State are  
Now Praising the Sensa-  
tional New Medicine For  
Benefits Received From  
Its Use.**  
Thousands of prominent people  
throughout the State are now  
praising the sensational new medi-  
cine Karnak. The demand for the  
preparation has exceeded all pre-  
vious records, and as new tests of  
its powers are made, hundreds more  
are daily adding their indorsements  
to the thousands already given it.  
In explaining the phenomenal  
success of the medicine, Mr. H. C.  
Thorburn, President of Standard  
Drug Products, Inc., recently said:  
"Before we secured the distribu-  
tion rights for Karnak in this coun-  
try we knew that it was a wonder-  
ful health-builder and were con-  
vinced that it would restore millions  
of people to the joys of health. Now  
the public has proved this for itself  
and people everywhere flock to the  
drug stores to get it and report  
benefits from its use that far sur-  
pass even their fondest hopes."  
"You can tell after the first few  
doses of Karnak that you are being  
benefitted in a natural, substantial  
way. These substantial benefits  
form the fundamental reason for the  
medicine's unprecedented success."

We, therefore, suggest that we all,  
regardless of our partisan prefer-  
ences, join together as citizens, meet  
the governor as our guest and show  
him every courtesy possible while he  
is in our town. Will not some one  
take the lead in this matter, organize  
a citizens—not a partisan—reception  
committee, and see that he takes a-  
way from Hondo such an impression  
of our town loyalty and hospitality  
that it will remain a pleasant mem-  
ory to him long after the asperities of  
the campaign are forgotten? Every  
good citizen can do this with-  
out any loosening of his affection for  
his favorite—and we should do it.

Estate of Mrs. A. K. Goza, Deceased,  
J. M. Finger, Executor of said Es-  
tate, has filed in the County Court  
of Medina County, Texas, an Annual  
Exhibit of said Estate for the year  
ending on the 1st day of February,  
1924, which will be heard by our  
said County Court on the 1st Mon-  
day in July, 1924, the same being the  
7th day of said month, at the Court  
House of said County, in Hondo,  
Texas, at which time all persons in-  
terested in said Estate may appear  
and contest said Exhibit should they  
desire to do so.  
Herein Fail Not, but have you be-  
fore said Court on the said first day  
of the next term thereof, this writ,  
with your return thereon, showing  
how you have executed the same.  
Given under my hand and seal of  
said Court, at office in Hondo, Texas,  
this, the 12th day of June, 1924.

Mr. Thorburn briefly quoted  
Andre's theories on health and liv-  
ing as follows:  
"Poor health is an unnatural con-  
dition. Nature is always working  
to restore us and with the proper  
assistance will succeed."  
"Millions of people drag through  
life feeling well only half the time  
or weak, sick and miserable af-  
ter day with hardly enough  
strength to keep up, and not know-  
ing where to turn for relief. They  
are victims of auto-intoxication or  
mal-nutrition. The vital organs are  
failing to do their work. The sys-  
tem is being poisoned with impu-  
rities that tear down the health,  
waste the strength and irritate the  
nerves. The vitality is being de-  
stroyed and their lives needlessly  
shortened."  
"To all such people Karnak has  
proved a blessing."  
"Mr. Andre's aim was to perfect  
medicine that would embody all the  
corrective forces of Nature. How  
well he succeeded is shown by the  
thousands who are praising the  
new medicine everywhere it has  
been introduced."  
"It is not unusual for people  
say that Karnak has relieved them  
of troubles that had defied all other  
treatments for years. That is be-  
cause Karnak helps the entire sys-  
tem regain its lost vitality, strength  
and resiliency and enables nature  
assert itself."

CASTROVILLE,

1924

ED. HUEHNER, Local Representative

News or business matter for this page for the week's issue should be submitted to Mr. Huehner or mailed direct to us at Hondo not later than Wednesday night of each week.

Misses Gertrude and Mary Noonan returned home from Kerrville one day last week where the young ladies had been attending school the past term.

Mrs. Jos. Bowman and son, William, and Mrs. Van Raub, were Castroville visitors Sunday.

The dance at the Electric Park and the Hall was well attended and very much enjoyed.

A most deplorable accident happened Sunday afternoon. While Messrs. Sebastian Tschirhart, Sr., his brother, and Albert Gerloff were sitting on a bench in front of Adolph Ahr's drug stand Ralph Tschirhart came along with a truck load of oats and in turning the corner the radius rod broke and the driver lost control. The machine swerved and ran up on the pavement, pressing Sebastian against the wall. Drs. Koontz and Williamson rendered aid. Later the patient was taken to San Antonio. We learn, at the writing, Tuesday afternoon, that he is getting along as well as could be expected.

Mr. and Mrs. Bob Rihn and children and Mrs. Mary Steinle spent Sunday in Pearsall.

Herbert Tondre, Hugo Bourquin and Miss Fannie Bourquin were San Antonio visitors Sunday night.

Mr. and Mrs. F. G. Muennink and daughter, Georgia May of Hondo visited Mrs. Emil Tondre Sunday.

Mr. and Mrs. Joe Haulzhaus and children of San Antonio visited relatives here Sunday.

Mrs. Catherine Jones.

On June 9th Mrs. Catherine Jones passed away at Uvalde, in the home of her daughter, Mrs. I. L. Martin. Mrs. Jones was one month less than 70 years of age. She was born Catherine Meyer, in the French Province of Alsace-Lorraine in the year 1835. She was one of the few surviving members of the Castro Colony, pioneers who came to Texas from Alsace-Lorraine in the year 1835. Mrs. Jones could read, write and speak several languages, French, German, Spanish and English. During the course of her long life she lived under five flags, the French flag, the flag of the Texas Republic, the United States flag, the Confederate flag, and again the United States flag. She had seen four wars in America, the Mexican War, the Civil War, the Spanish-American War, and the World War.

The funeral services were conducted at Uvalde by Father Smith with a requiem Mass at St. Mary's Church. Burial was in the Holy Sepulchre cemetery. The bearers were Harper Little, Will Morgan, D. H. Crisp, P. A. Johnson, J. Y. Sharp and D. H. Jones.

After the services at the Church the body was taken to Brackettville for interment. At Brackettville the bearers were Mrs. Jones's four grand-sons: Walter Jones and Homer Jones of Del Rio; Martin Boehmer of Eagle Pass; Bertie Jones of Brackettville; and two great-grand-sons, Melvin Hampton and John White of Uvalde.

Surviving Mrs. Jones are three sons: Judge Joseph Jones of Del Rio; John Jones and B. S. Jones of Brackettville; two daughters, Mrs. I. L. Martin of Uvalde and Miss Mattie Jones of Brackettville; twenty-four grand-children, and nineteen great-grand-children, and two sisters, Mrs. Langman and Mrs. Bohl, living in Medina County.

FOR SALE.

The F. L. Durbon place, on the highway in D'Hanis, is for sale cheap and on reasonable terms if desired. The place consists of about four acres of land, 4-room house, outhouses, two good wells, windmill, 1800-gallon galvanized tank, water piped all over place. All fenced into convenient lots with hog and chicken proof fence. For price and further particulars apply to the owner in D'Hanis or to Fletcher Davis, Agent, Hondo, Texas.

FOR SALE.

A good well watered 2.245 acre ranch. Five miles east of San Saba on state highway. For quick turn will take \$8.00 per acre. Can make good terms. Can not consider trade.

## TINIEST BABY NOW CITY'S PRIDE

CHILD WEIGHS THIRTEEN TIMES  
MORE THAN IT DID AT  
BIRTH.

Scientific Measures of the American  
Red Cross Preserve Feeble Life  
Spark of Port Arthur, Tex., Boy.

The tiniest baby born in Port Arthur, Texas, now is the prize baby of the town. This tot has multiplied his weight by 13 in the ten months of his life. He weighed 16 ounces at birth. He now weighs 13 1/4 pounds and is such a popular young man that wherever he goes he is the center of attraction. At the time this little baby first came into the world he was so feeble and tiny that for the first few days he had to have artificial respiration in order to keep his microscopic spark of life alive. An improvised incubator made in a baby carriage and kept at a temperature of 100 degrees served as his bed for the first month. He was only 11 inches long and was fed with a medicine dropper until he was able to master a bottle. Then a tiny doll's nipple on an ounce-bottle was all that he could take into his wee mouth.

The baby has been continually under the care of Miss Martha Lawless, Red Cross Public Health Nurse, since his birth, and his parents now proudly acknowledge the fact that it was only through the efforts of Miss Lawless and the attending physician that the baby lived.

The mother has been bringing Baby Louis to the Red Cross clinic as often as the doctor tells her to bring him, and on each occasion his arrival almost suspends operations at the clinic, so eager are the other mothers to learn of his improvement.

"Louis' mental faculties are excellent," said Miss Lawless in commenting on the remarkable case. "He is as smart as he can be and understands as well as any child of ten months of age. He can sit up in a rocking chair and rock himself, a feat he often does to the amusement of the mothers and the children at the clinic."

"The average child triples his birth weight in one year, but Louis has tripled his in 10 months. The average boy of ten months, however, should weigh 19 pounds. He had influenza when he was six months old, but recovered and is now as healthy as a normal child. He eats spinach, oatmeal, carrots and meat broth and any other diet the doctor tells his mother to feed him."

"He is the most remarkable case we ever handled. We are very proud of our record, too, because of all the other babies who were born weighing slightly more than one pound, every one has died. Louis is the only child of one pound or under who has lived, according to press dispatches we have been seeing lately. The only other similar case nearby was in Houston last year when the twenty-four-ounce baby was born. It only lived a few days."

Miss Lawless is a Red Cross Public Health Nurse working under the supervision of the Port Arthur Chapter and her successful treatment of this baby is an example of the work which public health nurses of the American Red Cross throughout the United States are doing in their effort to improve the general health of the American public and to lower the infant death rate as well as the adult death rate from preventable causes.

Red Cross nurses attached to various chapters of that organization in all the states of the Union spend their days and sometimes their nights in serving the needs of the ill and infirm. They nurse the sick, give advice to persons who are caring for the sick, assist in obtaining medical attention for those who would not otherwise get it, and times without number assist in restoring individuals to health, as well as giving immediate attention in critical situations which sometimes mean the saving of a life.

The Public Health Nursing Service is one of the 12 lines through which the American Red Cross is endeavoring to be of practical service to the public.

Many of the chapters in the Southwestern Division of the Red Cross, which embraces the states of Arkansas, Colorado, Kansas, Missouri, New Mexico, Oklahoma and Texas, employ Public Health Nurses. In some cases several chapters combine or co-operate with county health organizations in the employment of a nurse. The service of these women is free to all alike and goes to all who need it, whether rich or poor, and without regard to creed, color or social status.

#### Hall's Catarrh Medicine

Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE consists of an Ointment which Quickly Relieves by local application, and the Internal Medicine, a Tonic, which assists in improving the General Health. Sold by Druggists for over 40 Years. F. J. Cheney & Co., Toledo, Ohio.

### YOU CAN'T TRUST CALOMEL AT ALL

It's Quicksilver, Salivates, causes Rheumatism and Bone Decay.

The next dose of calomel you take may salivate you. It may shock y or liver or start bone necrosis. Calomel is dang rous. It is mercury, quick silver. It crashes into sour bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system. If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dods-on's Liver Tonic for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it don't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

Don't take calomel! It can not be trusted any more than a leopard or a wildcat. Take Dods-on's Liver Tonic which straightens you right up and makes you feel fine. No salts necessary. Give it to the children because it is perfectly harmless and can not salivate.

### IT HAS LASTED.

Hon to People Must Believe Such Convincing Testimony as Mr. McCall's

No one in Hondo who suffers backache, headache, dizziness, rheumatic pains or distressing urinary ills can afford to ignore this twice-told story of a Hondo resident. It is confirmed testimony, telling of lasting benefit from Doan's Pills—a stimulant diuretic to the kidneys. It's evidence that no man or woman in Hondo can doubt.

Thos. McCall, carpenter, Hondo, says: "I came down with an attack of kidney trouble. I had such a severe pain in my back, I could hard y stoop or lift anything. My back pained me all the time and made it difficult for me to do my work. Doan's Pills from Windrow's Drug Store removed the trouble."

FOUR YEARS LATER, Mr. McCall added: "I have used Doan's for a slight backache since. I endorsed them before. I think as much of them as ever."

### Au Revoir.

Not having the time to personally call and bid each one goodbye, we say ourselves of this means of gratefully acknowledging our deep appreciation for the many deeds of kindness shown us while in Medina county, and we also wish to express our thanks for the splendid co-operation of the people in our work while stationed here.

In taking our departure we solicit a continuance of the courtesies shown us to the new county agent, Mr. Ferguson. He is splendidly equipped by both training and education to render you all an invaluable service, and we respectfully ask your kind co-operation in all his endeavors in your behalf.

Sincerely yours,  
MR AND MRS. C. M. MERRITT.

## OVERLAND WINS ECONOMY RUN THIRD TIME.

The Bird Makes 29.36 Miles to Gallon for 400 Miles.

What is probably the most auspicious ever scored by a new Willys-Overland model is the wonderful win of the Overland "Blue Bird" in the annual 400-mile Los Angeles-Camp Curry Yosemite economy run May 17th and 18th.

In addition this car won the trophy in its own class, an Overland Model 91 in its class cup and a Willys-Knight Car captured the second prize. Car captured the second prize, a truly remarkable feat in a grueling test conducted by the Automobile Club of Southern California.

Using only 13 1/2 gallons of gasoline, additional oil and only 14 pints of water, the Blue Bird, piloted by Joe H. Hutzler, of the Bozzani Motor Car Company, Los Angeles City dealers, won the sweepstakes cup with an average of 29.36 miles to the gallon, completely out-performing the rest of the field.

This is the third time that an Overland has won the sweepstakes honors. What made the victory all the more remarkable was the total weight of the Overland, its poundage of 3520 lbs. exceeded by only eight cars in the test, thus demonstrating its ability to carry weight as well as to operate economically. The Blue Bird's tonnage per gallon scored for the sweepstakes honor position was 49.61.

Besides winning the sweepstakes trophy the Blue Bird also captured the honors in its own class, 2A, for cars weighing at more than \$651 at the factory, in which it scored a ton mileage of 51.67.

**Willys-Knight Wins Second.**

Second prize in the sweepstakes went to another Willys-Overland entry, Willys-Knight Touring Car, driven by C. E. Kirkham of the Willys-Overland Pacific Company.

The Willys-Knight registered 23.58 miles per gallon, using no water and only two pints of oil. Its sweepstakes tonnage was a ton mileage of 45.43 per gallon of gas. The outstanding feature of its run, however, is its remarkable cooling efficiency. Despite the fact that the contestants encountered the hottest day of the year, with the thermometers registering 102 degrees through the Joaquin Valley, with the humidity that even this mark was exceeded in the Mohave desert stretch from Palmdale to near the Tehachapi summit, not a drop of water had to be added to the Willys-Knight's radiator. The third Overland victory was scored by a model 91, driven by Romoio Benigni, also a member of the Bozzani organization, who drove his mount to win in class one, averaging 28.08 miles and 42.53 ton miles to the gallon of gasoline.

**Travel Through Desert.**

The eighth annual economy run was more than merely an economy run. It was a test of the lubricating and cooling efficiency and endurance of the cars entered. The distance was 400 miles over boulevards, desert and mountain grades, crossing two high ranges under a burning sun and traversing more than 150 miles of dirt road.

While the route over the Tehachapi way of the Mohave is 40 miles long, conditions over the sand and dirt roads of the route is a fairer test of the cars under actual touring conditions, which coupled with the new rules, made the run the best of most valuable from a performance standpoint.

The rules prohibited coasting and clutching for any reason except coming to a stop. Should the motor be inadvertently stopped the driver was required to immediately start it again with no "free" coasting was permitted.

**Maintain High Average Speed.**

Under such conditions the test of a car was even more severe than in ordinary driving over such a route, as drivers will turn off the switch to allow their cars to coast for long distances on such trips, often with the cars disengaged. An average speed of approximately 24 miles per hour was also necessary on the first day's run to make the Fresno control on time. This meant that all competing cars must forego the advantage derived in past years of speeding up to 40 miles an hour and then, with clutch off and clutch disengaged, coast down to almost a walking gait.

The ton mileage basis in the sweepstakes takes no account of water or consumption and is arrived at by multiplying the weight of the car by the miles covered divided by 2000 and then dividing this result by the number of gallons of gas used.

Great credit accrues to the crew of the Blue Bird, headed by Joe Hutzler, who had to work hard to achieve the victory with minds, hands and jaws, during the final mountain stretch developed in the gas line and the car had to chew gum in relays for the rest of the trip, providing plasters to save losing part of the precious fuel on the road.

Mrs. D. A. Curry, "Mother" Curry, nearly everyone calls her, awarded the trophies to the winners on Sunday morning.

Mr. and Mrs. Fletcher Davis and son, Marion, spent a couple of days in San Antonio this week, returning home Wednesday night. While in the City Marion had his tonsils removed. The operation was a success, but it will be several days before he will attempt to sing any college songs.

Frank Jungman drifted in home on Friday morning's jitney, and is glad to again be back on his native heath. However, Frank is looking well and evidently the good people of Missouri dealt kindly with him while he was a resident of Senator Jim Reed's bailiwick.

The union protracted meeting continues to draw large crowds of interested worshippers at both the morning and evening services. Most of the business houses in the town close for the morning services. A great deal of interest has been awakened and there will be a considerable addition to the church membership as a result of the meeting. The meeting will continue over Sunday.

Most of us know Mr. T. McCall as a carpenter, but between times he farms on the side and his town-lot farm would be a model to many more pretentious farmers. We know he is making a success because Monday was made a "fat" day at the editor's dinner table by a nice mess of green corn and snap beans from that farm, and where a farm is producing the "eat" success is attending the farmer.

## Stomach Distress?

Galveston, Texas—"One year ago I was suffering with indigestion. Everything I ate hurt me and I had almost constant headache. I tried several remedies which did me no good. Then I decided to try Dr. Pierce's medicine. I took the 'Golden Medical Discovery,' which was highly recommended for stomach trouble, and the 'Favorite Prescription,' a celebrated feminine tonic, and I improved right from the start, and by the time I had taken a few bottles I was well."

## FORD CAR No. 10,000,000

On It's Trip From New York To San Francisco.

Selection of the Lincoln Highway as the official route of travel for Ford Car No. 10,000,000 on its trip from New York to San Francisco brings the world's most popular car into a new and more intimate association.

Of course, Ford cars have sped along over this great ribbon of gray stretching from coast to coast ever since it was first laid out and it would be interesting to count the Fords that will meet the Ten Millionth Car on its journey.

But supposing the other 9,999,999 Fords were suddenly to appear and endeavor to get on the highway with Car No. 10,000,000.

Well, there'd be a hurry call for all the traffic cops in the country and just how long it would take them to bring about any semblance of order no one could even guess.

Anyway, let's give them the credit of doing a good job and finally lining up all the 10,000,000 cars, six abreast, which would make a line 33 feet 9 inches across.

Then even with the cars standing end to end they would cover the entire 3,305 miles of the famous highway and there would be 1,151,920 cars out of the picture, unless the cops were too tired to park them on either side of the road so they could see the rest of the family on parade.

## With the Drillers.

Nothing new, so far as we are advised, has occurred among the drillers the past week. In fact the drilling rigs, or at least those in proximity to Hondo, are standing still from various causes, although the time is being utilized by the various crews for greater activity when operations are again resumed.

Drilling at the home company's well, with Will Metzger in charge, on the Ward tract, after practically a month's shut down while extensive repairs were being made to the boiler, resumed drilling Thursday. When it is understood that the machine shops having the contract and the boiler was some fifty miles apart, the delay in completing the repairs will be better understood. This well, down some 700 feet when forced to cease drilling on account of the condition of the boiler should, barring other delays, drill in by the first of the coming month.

The Ina 4 (the old incomplete Smith-Donaldson well), scheduled to be drilled in Thursday of last week, shut down when the cap rock was reached owing to the non-arrival of a car load of casing. The shipment had not arrived up to Thursday of this week. A tracer has been started and it is hoped to locate the shipment soon. As soon as this well is drilled in the rig will be moved to a new location already definitely decided upon.

Being disappointed in getting a rig they were dicker for, the Ina people are having their old rig remodeled and repaired and as soon as the work is completed, it will be put in commission on location already selected.

The Witherspoon Drilling Co., drilling a well for local people at High Point, near Devine, is employing a double shift, but as to what they are finding is their secret as they are giving out no information.

We understand another drilling contract between one of our local men and a drilling company was to be entered into in San Antonio last Tuesday, but

whether or not the deal was consummated we are not advised.

PAUL WEYNAND GARAGE  
AGENT FOR MEDINA COUNTY,  
HONDO, TEXAS.

# BUCK HILL DISTRICT NO. THIRTEEN. (P. O. Hondo, Texas.)

From Directory, Medina County Public Schools.

Buck Hill is located about ten miles south of Hondo. It is a part of the original Community District now consolidated with Yancey. A handsome modern building serves to raise the standard and to improve the taste and ideals of the people in this section. The movement generally known throughout the country as "consolidation" is, perhaps, the most marked of all progressive movements now being advocated for the improvement of rural schools. This movement is applicable to this school. The district has a splendid school spirit, and by consolidation could ex-

BUCK HILL SCHOOL, DISTRICT 13.

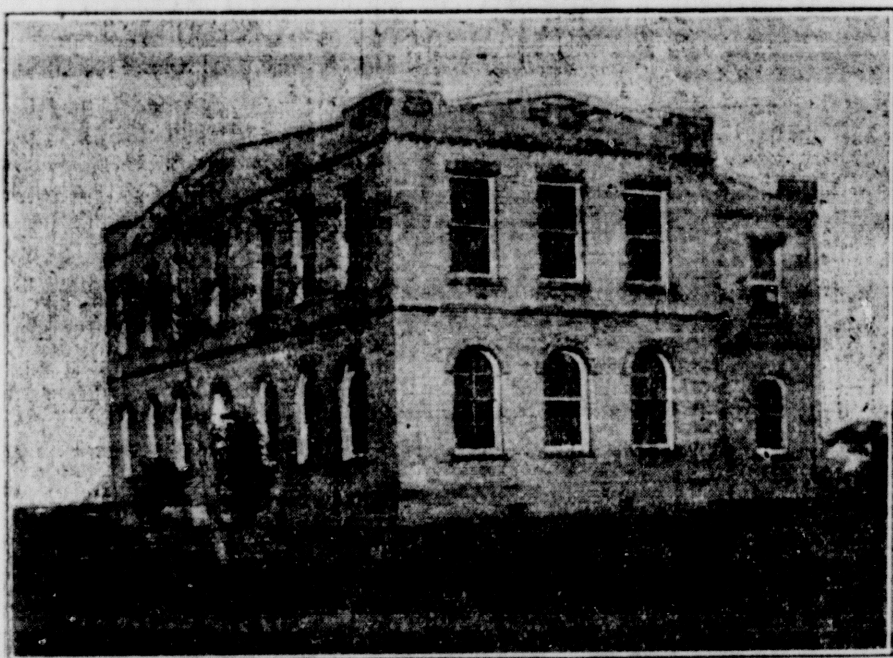

tend the opportunities of the children. The board has been successful in getting college trained teachers to teach all the grades. The high school students transferred to affiliated schools have made good.

Buck Hill is in the center of a prosperous farming community. Many of the farms are worked by Mexicans. Some of the children of these Mexican renters attend school. This makes the task doubly hard for the teacher. As a rule the Mexican children make good students.

The equipment furnished is complete, with the exception of a standard library. The board of trustees consists of Mr. Jacob Fohn, Mr. F. G. Senne and Mr. Herman Oefinger, a very considerate trio. Their frequent visits to the school are an inspiration to teacher and pupils.

Miss Lucille Newton is teacher. Term, 8 months. Salary \$85.00. Certification of teacher, First Grade.

Scholastics 51, enrolled 19. The school has a 15c maintenance tax.

YANCEY CONSOLIDATED SCHOOL, DISTRICT 16.

# YANCEY DISTRICT NO. SIXTEEN. (P. O. Yancey, Texas.)

Lying in the southern end of Medina County, and including some of the northern end of Frio County, is the community of Yancey. This is a typical rural community, the people depending almost altogether on the soil for their living. The village of Yancey with its two churches and school lies in a valley surrounded by hills. This valley is a fertile farming region while the rougher lands outlying from here are excellent for cattle and goats. The principle products are cattle, hogs, corn, cotton and various sorghum feeds. Another important industry of this region is bee culture, for which the climate and floral life is ideal.

As is often the case with this type of a community the school with the church is the center of community spirit. For many years there were three schools in the community, the Community School to the north, the Styles School to the west and the Tehuacana School to the South. These were the typical country schools and were inadequate to meet the demands of a forward looking people. The people wanted the better advantages that were offered in a larger central school. Therefore, they effected a consolidation of the three in 1912.

Instrumental in this work of consolidation were the three men who composed the first board, J. W. McCaughan from the Styles district, H. G. Wilson from the Tehuacana district, and J. P. Nixon from the Community district, together with County Superintendent W. N. Saathoff.

Since the consolidation of these school districts the development of the school has been rapid and consistent and today the school is modern in all respects. It has a department of Vocational agriculture for the boys and a department of Home Economics for the girls. In these departments the young men and women of the community are given some of the principles of home making and scientific agriculture and stock raising.

Underlying these courses are the regular courses found in all high schools.

Notwithstanding the depression in the business of farming and stock raising every where, if one should visit Yancey today he would find a substantial, self-sufficient, progressive people who value education and are making large investment in the youth of the community. He would find a school spirit second to none and a student body fair to see and loyal to the core, one hard to whip in a contest, generous to the vanquished and courteous to the victor. He would find a school and a community whose eyes are to the front and whose goal is fixed high, a place where the greatest things lie hidden in the future and not in its history.

Trustees—J. H. Burgin, F. W. Oefinger and W. B. Melton.

# HONDO INDEPENDENT SCHOOL DISTRICT.

In 1904 the town of Hondo incorporated for school purposes. This incorporation established the metes and bounds of the present school district, and consists of twenty-five square miles of territory. The land embraced in this territory is practically all agricultural. The soil is black waxy and chocolate, and produces abundant crops. The principal crop is cotton, though much corn and smaller row grains are raised. Quite a good deal of the farm work is done by Mexican tenants. The land owners are living in town to give their children the advantages of a high school education.

The first bond issue of \$8,000.00 was voted in 1904, and a six room two story brick building was erected with Prof. Honold as Superintendent. A second bond issue of \$10,000.00 was voted in 1909 and a four room two-story brick addition was erected. Prof. M. R. Nelson was Superintendent during this term. The buildings do not conform to the modern type, but the equipment is modern and in keeping with progressive methods of education. The library consists of 3,000 volumes of reference and other books, and an extensive selection of bulletins from the U. S. Department, while the science department has ample equipment for physics, general science, physical geography and agriculture. The English Department of the school should have especial mention. This is one of the few schools in Texas which has a four year course in English approved by the State Department. This department gained this distinction through the untiring efforts of Mr. Mayhew Mantor. Miss Irene Henderson followed Mr. Mantor and has acquitted herself magnificently in maintaining the high standard.

At present the school boasts of full affiliation with the first class

colleges and universities of Texas. This growth has been largely due to the splendid co-operation of the patronage and to the capable men who have served as members of the board of trustees. Their selection of superintendents together with assistants, who hold university degrees, as instructors for the school has done much for the school and the individual boy and girl of the school.

A school can have efficient teachers and boards of trustees, but no school can properly function unless it has a wide-awake progressive Parent-Teachers Association. Hondo can well boast of that association, which was organized in 1908-09 under the superintendency of Prof. J. W. Covington. Mrs. P. Jungman was elected the first president of the association. Mrs. J. A. Horger is the present chairman. The P. T. A. is deeply interested in the school and is a great help to the faculty because of their co-operation. Through the P. T. A. every pupil is given a physical examination, his shortcomings are noted in the various clinics, and recommendations for their corrections made to their parents.

The faculty for 1923-24 is: Mr. J. D. Howell, Superintendent, Mr. I. Eaves, Principal High School, Teachers in High School: Miss Irene Henderson, Miss Eunice Hindes, Miss Bessie Brucks. Grade Teachers: Miss Fay Russel, Miss Gertrude Reilly, Miss Dee Crow, Miss Willie D. Fly, Miss Amanda Smith and Miss Alice Newton. Miss Edna Graff has charge of the Mexican school.

Scholastics, 579; enrolled 314. Tax rate 75c. Hondo is the county seat of Medina County, and is situated fifty miles west of San Antonio on the G. H. & S. A. R. R. and the Old Spanish Trail. Its citizens are of the stock that followed Mr. Greeley's advice. They came for better advantages and greater opportunities. Their efforts have not been in vain. Hondo has had a gradual growth, and prosperity is prevalent in every department of business. The banks and business houses are prosperous. They know nothing of the "slump" of the past years. The water and light system is modern and would be a credit to a town ten times as large as Hondo. Fraternal orders of every type have strong organizations. Last but not least, Hondo boasts of having a church going people, who worship at the shrine of their belief among which are the Baptist, Roman Catholic, Methodist, Presbyterian and Christian.

The Chamber of Commerce has done much towards beautifying the town and encouraging forward-looking white home-seekers and community builders with families to come to Hondo to educate and rear their families.

# PEACE PROGRAM OF AMERICAN CHILDREN

# JUNIOR RED CROSS CEMENTS FRIENDSHIP OF NATIONS.

Boys and Girls of All Countries Work  
Together Through School  
Correspondence.

The children of the schools in the states of Arkansas, Colorado, Kansas, Missouri, New Mexico, Oklahoma and Texas are actively promoting the campaign for international friendship inaugurated three years ago by the American Red Cross through its junior auxiliaries. These states constitute the Southwestern Division of the American Red Cross, and the campaign is being worked out through international communication, schools in America corresponding with schools in foreign countries and receiving replies in kind from these foreign schools.

Auxiliaries of the Junior Red Cross, which is the Children's branch of the American Red Cross, now are corresponding with children in the schools of Albania, Austria, Belgium, Czechoslovakia, France, Holland, Hungary, Italy, Jugoslavia, Poland, Rumania, Scotland, Switzerland, South Africa and New Zealand. In many cases they are getting very interesting replies. In a few instances, such as Alaska, Hawaii, the Philippines, Porto Rico and the Virgin Islands, all of which are American dependencies, there is an exchange of correspondence material that is very helpful in working up the letters going to foreign children. Also, correspondence between the schools in the United States is helpful in promoting the international correspondence and many of the Indian schools of the United States are corresponding through their handiwork as well as their letters with children in other schools of this country.

This correspondence includes actual letters composed by an entire class, picture books, scrap-books, specimens of needle work and various textile art, and sometimes outlines of the work done by the children of the class sending them.

The portfolios which American children make up give motive for study and description of America and American life. These portfolios stimulate the young recipients abroad to a live interest in similar affairs and happenings in their own country and usually elicit portfolios in exchange.

Beside the promotion of international friendship, this work on the part of the Juniors has other benefits. Children who hate geography suddenly find their interest in this dry study awakened by the desire to know just where their letters are going. History, also distasteful to many, is made a pleasant pastime for the same reason, and languages become absorbingly interesting because the American children want to know something about the difference in the words which they use and those which their correspondents across the sea use to mean the same thing.

Educationally, all this is of great value, American educators believe, and so strong is their opinion on this subject that at the last annual meeting of the National Educational Association a resolution endorsing the international correspondence was passed unanimously.

Those who are promoting the undertaking, however, believe that great as is the educational value, the value internationally is far greater, because it definitely cements understanding and friendship between children of different nationalities and races and, therefore, makes for permanent international peace. Publicists, as well as educators, are of the opinion that it is the longest step forward for international understanding which has been taken in many years.

There are now 5,200,000 children enrolled in the Junior Red Cross and approximately 2,625 schools engaged in this correspondence.

# Leinweber-Foster.

A wedding of more than passing interest to the people of Hondo, owing to the esteem in which the young people are held, occurred at the home of the bride's parents, Reverend and Mrs. A. M. Foster, at the Methodist parsonage, at 4:00 p. m. Tuesday afternoon when Miss Marie Foster became the bride of Mr. Alvin F. Leinweber, the father of the bride officiating.

Immediately after the ceremony the happy young couple left in their car for a bridal trip to San Antonio, Robstown, Corpus Christi and possibly points in the lower Rio Grande valley. They purpose to return about the end of the month and will make their home here.

The bride, the lovely daughter of Reverend and Mrs. A. M. Foster, has been a resident of Hondo since some two years ago, coming with her parents when her father was assigned to the church here. By her womanly graces she immediately won her way into the hearts of our people and is one of the most popular of the younger set.

The groom, a "native to the manor born," has grown up among our people and is universally esteemed. He is one of the young business men of the town and every one is expecting him to wield great influence on the future prosperity of this section.

That the wedded life of this young couple may prove one of perpetual joy is the wish of all our people.
